

RATIO STUDIO

Arch 575: Integrative Architecture Design Studio fall 2026

Arch 572: Health and Wellbeing Design Studio fall 2026

Julie Zook (contact), UIUC School of Architecture and Carle IL School of Medicine

Nita Christopher, Ratio Architects, Sustainability and Champaign Studio Lead

Health care: This studio's building program is an ambulatory surgical center with a short stay recovery unit on a Champaign site. Carle Health will provide a tour of an existing ambulatory surgical center and join the final review.

Building climate: We will design for building and climate by reading about future climates, considering impacts of climate on individual and public health, and modeling building energy use intensity.

Please note: This studio will meet at the Ratio Champaign office most Mondays with Wednesday meetings at the School of Architecture.
